KENTUCKY S. S. WORKERS

To Hold State Convention In
Madisonville Last Week
In August.

COUNTY DELEGATES.

Sister City Will Take The
600 Delegates Into The
Homes.

The citizens of Madisonville are making preparations to entertain the 500 or 600 delegates who will attend the twelfth annual convention of Kentucky Sunday school workers, which will convene Aug. 27, and continue for three days.

On account of not having a hotel large enough to take care of the visitors, it will be necessary for the citizens to entertain the delegates at their homes. The Committee on Entertainment has been engaged for the past two weeks securing homes for the delegates, and haven't with much success.

A movement is now on foot to have the city thoroughly cleaned before the visitors arrive, and probably one day this week will probably be set aside for this purpose. A meeting as large as this has never been held in Madisonville, and the town is naturally proud of the fact that this body of good people will be here on this occasion.

The meetings will be held at the Tabernacle, which is the largest building in the city. The committee has been informed that 500 or 600 delegates will be in attendance on the convention, and the people from this and adjoining counties will swell the number.

The programme has not yet been completed, but some prominent Sunday school workers will be present from this and adjoining States.

Prof. C. E. Dudley, of Pembroke, President of the Christian County Sunday School Association, has appointed the following delegates from the county at large:

Miss Julia Arnold, Hopkinsville.
Mrs. Lizzie Seargent, "
Mr. R. C. Hardwick, "
Mr. E. B. Bassett, "
Dr. J. P. Bell, Bell.
Rev. R. L. Baker, Salem.
Miss Ellen Cloud, West Fork.
Mr. Marcellus Brum, Crofton.
Mr. W. A. Jones, Pembroke.
Miss Katy Graham, Pembroke.

These delegates will write to Dr. J. E. Taylor at Madisonville for entertainment.

Besides these delegates, each Sunday school is entitled to one delegate for each one hundred or fraction of one hundred pupils enrolled. Let each school in the county see that it is represented in this great convention.

STANLEY MAKES STATEMENT

As To Interview Given To
The Evansville Cour-
ier.

DEPLORES LAWLESSNESS.

Corrects Some Erroneous Im-
pressions — Second Dis-
trict Free From Trouble.

When asked about the interview given to the Evansville Courier of yesterday, Congressman A. O. Stanley said:

"My interviewer, while reporting me correctly in the main, seems to be under the impression that some of the reporters in my district had exaggerated these reports concerning the acts of lawlessness.

"I am very proud to say that there have been practically no acts of lawlessness committed in my district. I know of no instance where any correspondent has misstated the facts.

"The reports of the so-called acts of lawlessness, occurring in Tennessee and Southwestern Kentucky, have been grossly exaggerated. Moreover the cowardly attacks on Joel Fort and Dr. Sory, together with the destruction of Luther Ramsey's threshers, are all thrown into one job lot, and the Association is held responsible for the wrongs done its enemies and its friends by the paid emissaries of the Trust. Now Fort, Sory and Ramsey are all ardent Association men.

"No man who cares to know the truth, or who reads the papers will doubt for an instant my attitude as to acts of lawlessness, as in a hundred speeches in Tennessee, Kentucky and Virginia, and interviews, and in private conversation, I have earnestly deplored every act of violence no matter by whom committed, and have urged above all things, obedience to the majesty of the law.

"In November, 1905, at the request of Felix Ewing, the chairman of the executive committee of the Dark Tobacco Growers Protective Association I went to Springfield, Tenn., and there, in a lengthy speech to fifteen hundred tobacco planters, I urged, above all things the necessity of obedience to the law for patience under wrong, and tried, in my own poor way as best I could to tell how deplored of any kind, whether against persons or property, when committed against persons not members of the Association, would do infinite mischief to the Association. Ten thousand copies of that speech were printed by the Association and distributed by Mr. Ewing all over the dark tobacco district.

"This address was printed in full by the Gleaner, Hancock Clarion and other papers in my district.

"I make this statement simply to call the attention of my friends to the fact that I have stood always and at all times unequivocally for the law and against any form of mob violence when I constitutionally detect."—Harrison Gleaner.

Total Abstinence.
The report of the directors of the Bceptre Life Association, Eng. presented at the recent annual meeting of shareholders, contains figures which speak unambiguously in favor of the principle of total abstinence from intoxicants. Out of the total number of policies issued, 74 per cent. were on the lives of total abstainers; of this class 77 per cent. were life abstinences. The ratio of actual to expected deaths, calculated from the official mortality table, showed 92.18 per cent. in the temperance class, against 69.56 in the general section, a difference of 22.62 in favor of total abstinence.

Hummel Causes Commotion.
Abe Hummel, the New York lawyer who was convicted of conspiracy in connection with the Dodge-Morse divorce case, has been assigned to work of assorting vegetables in the store-room, from which he will trundle them to the kitchen in a wheelbarrow. He declares his intention to write a book of his prison "and other" experiences, and not a few residents of New York city are somewhat perturbed over the forthcoming publication, for Mr. Hummel is understood to have great deal of awkward and incriminating evidence in his possession.

Flew Too High at First.
The mistakes inexperienced music teachers make in mapping out courses of study for their pupils are almost incredible. A young girl came to me for lessons recently, says Robert D. Brain, in the *Kidney*, and I found that the course she was studying was as follows: For exercises she had the entire list of Beethoven sonatas in two volumes, having already "been through" the first volume; for a solo she had Liszt's Hungarian Rhapsody No. 2. She could not play any of the scales, and had to be put back to easy studies and a simple waltz by Dursant.

Wrong Keys Returned.
"It is true that many guests who go away with the keys of their rooms attempt to repair their deeds of forgetfulness by sending back their plunder," said a hotel clerk. "The trouble is that in sending back the keys they usually send the wrong ones. I have in the safe a box full of keys that have been returned by absent-minded travelers who, in trying to square themselves with this house, made a mistake and sent us the keys that they had carried away from some other hotel."

Interlocking Rubber Tiling.
The growing popularity of interlocking rubber tiling is shown by its invasion of new fields, being extensively used in kitchens, vestibules and bathrooms of the better sort; in fine ocean liners, lake steamers, ferry-boats and yachts, where its non-slippery character and the fact that it remains unaffected by constant wetting strains render it very valuable, and now it may be seen in one of the finest cathedrals in the country and in one of the largest of our public art galleries.

Wants Snakes Protected.
At a meeting of the Melon Growers' association it was decided to adopt resolutions for the preservation of all snakes of the chicken and spreadhead variety in the melon belt, and the sense of the meeting was that the increase of the reptiles should be welcomed, says a *Carmel* correspondent of the *St. Louis Times*.
The chicken and the spreadhead snakes are the natural enemies of field mice, and destroy crops of them each day.

The Art of Skip-Reading.
Skip-reading is an accomplishment of our own time. An ordinary man or woman of today can extract all the requisite information out of a newspaper in less than five minutes by the exercise of this new sense—for it is little else than this. The eyes race down a column, pick up instinctively an essential word here and there, and the brain fills in the intervals intelligently, producing a précis which is sufficient for the purpose.

The Latest in Bean Pots.
At last the bean pot, so dear to New Englanders and lovers of baked beans, has been glorified, and the casserole of French origin need no longer be used for the Saturday night delicacy. Bean pots may be had of particularly quaint shape, with handles at one side and an ornamental cover. The ware is gray with a raised decoration in blue. A pot of quart size may be had for 60 cents.

Pine Pollen Travels Far.
The pollen from pine forests often forms a yellow coating on the roofs or on the ocean as far as 200 miles from the shore, and has been mistaken by peasants for showers of sulphur. The pollen grains of the pine are provided with hollow vesicles, which buoy them up in the air very much on the principle of a box kite.—*Nature Studies*, in *St. Nicholas*.

The Hour and the Plan.
The wealthy one—"I don't want any insurance. I'm in no danger of dying poor." The Agent—"But, let me explain. This is an up-to-date scheme to insure you against the horrors of dying rich.—Puck.

A Law of Nature.
The rain was falling. Somebody had made an observation to this effect, conversation having languished. "Did you ever know of a rain that didn't fall?" asked a querulous person.

IF WOMEN ONLY KNEW

What a Heap of Happiness it Would Bring to Hopkinsville Homes.

Hard to do housework with an aching back.
Brings you hours of misery at leisure or at work.

If women only knew the cause—that Backache pains come from sick kidneys. 'Twould save much needless woe. Doan's Kidney Pills cure sick kidneys. Hopkinsville people endorse this:

Miss L. A. Hester, 826 North Main Street, Hopkinsville, Ky., says: "I honestly believe that there is little need of any one suffering the torture of backache when such an effective remedy as Doan's Kidney Pills can be procured at L. A. Johnson's drug store. The prompt and thorough relief which followed their use in my case has given me abiding faith in their merit. In the summer of 1903 I was suffering greatly from soreness and lameness across the small of my back and other difficulties arising from a weakness of the kidneys. Two boxes of Doan's Kidney Pills was all I required to free me from the distressing pain in my back and restore my kidneys to a good healthy condition. I recommended Doan's Kidney Pills at that time and during the four years which have elapsed I still hold the same good opinion of the remedy."

For sale by all dealers. Price 50 cents.

Alaska Rations.
Upon recommendation of the commissary general of the army, the field rations of the troops serving in Alaska will be 16 ounces of bacon, or, when desired 16 ounces of salt pork or 22 ounces of salt beef; 24 ounces of fresh vegetables, instead of 16 ounces; 3 25 ounces of desiccated vegetables, instead of 2 25 ounces and 8 25 ounces of candles, instead of 6 25 ounces.

Metals and Metaphors.
"It is most amazing," said a metallurgist, "how the world relies on metals for its metaphors and similes. Thus an orator is silver-tongued or golden-mouthed. An explorer is bronzed by African dews. A resolute chap has an iron will. A sluggish moves with leaden feet. An ostrich has a copper-lined stomach. A millionaire has tin. A swindler is as slippery as quicksilver. A borrower has brass."

Umbrella Without Handle.
The umbrella of a Vienna architect is a covering of silk or other material supported on the shoulders by means of two thin rods and a band across the chest. When not in use it folds into a very small space. The hands are left free, and the device is especially recommended for persons who sometimes work in rain. Like architects, engineers and artists.

A Necessary Precaution.
Neighbor—"No one ever hears you and your husband exchanging words. Do you get along so excellently together?"

Wife—"Not at all; but we discovered that the maid listened at the door. Now we quarrel only on Sunday afternoons between three and six, when she is out of the house.—Translated for *Trans-Atlantic Tales* from "File-geende Blattler."

Democratic Royal Personage.
Prince Eugene of Sweden, one of the most democratic royal personages living, studied art seriously in Paris, where he was known in the artistic and literary world as "E. Oronson." He is fond of touring Italy and always has for a companion some painter or sculptor friend. He is a painter of ability, devoting most of his time to landscape work.

NOBLY SAID.

"We deeply regret that such acts do occur, and we again express our earnest disapproval of same. We are opposed to all violations of law."—Ex. Com. Tob. Ass'n.

ASSOCIATION ALL RIGHT.

The Dark Tobacco Association is meeting the expectations of the people and patting itself squarely on the side of law and order. The District committee at Guthrie, the county committee of Christian and that of Montgomery county, have all gone on record and if the wishes of the association are carried out, we shall soon hear no more of night riding.

Nearly everybody is joining the association because the prices are better inside than out and if the irresponsible element that is in it can be controlled, the organization will become a permanent blessing to every grower of tobacco. Then any defect can be corrected and all will be well. It is the agitators, the boycotters and raiders who are causing all the trouble. Send them to the rear and let's pull together for good order and a good organization.

Former Circuit Judge James P. Tarvin, of Covington and Louisville, died suddenly Tuesday in Cleveland, Ohio, of asthma. He was on his way to a health resort and was stopping over in Cleveland when stricken. He was 47 years old.

Special Judge W. B. Moody overruled at Lexington a motion of the Commonwealth to transfer to Breathitt county the cases of Elbert Hargis, Bill Britton and John Abner, accused of complicity in the murder of Dr. D. B. Cox at Jackson five years ago.

RESOLUTIONS REPORTED.

Planters' Protective Association of Christian County Offers Support to Gov. Beckham to Put an End to Night Riding in This Region.

At the regular monthly meeting of the Christian county executive committee of the Dark District Planters' Protective association, the following resolutions were unanimously adopted and ordered sent to Gov. Beckham:

Whereas, It has been brought to our attention that Hon. Malcolm Patterson, governor of Tennessee, has taken a determined stand to suppress lawlessness in certain counties in his state, by offering rewards and assistance to the various county and district officers; and has called upon Hon. J. C. W. Beckham, governor of Kentucky, to co-operate with him in his efforts,

And whereas, certain newspapers and various citizens have assumed that members of the Tobacco association have been connected with these various depredations committed in Kentucky and Tennessee, and seek to hold the farmers organization responsible for the violations of law that have occurred.

We, the Christian county committee of the Dark Tobacco Planters' Protective Association of Kentucky, Tennessee and Virginia in regular

meeting assembled hereby commend Governor Patterson and Governor Beckham for the action they have heretofore taken to suppress the dreaded "Night Riders," and to bring to justice each offender of the law and to rid the state of the disgrace that has thus been brought upon her people; and hereby offer to the governor of Kentucky our support in suppressing lawlessness and crime of ever nature; and as a means of stamping out the crimes being committed in various sections, we hereby call upon the governor of Kentucky to co-operate with the various district and county officers in an effort to apprehend and convict the guilty parties.

The Dark Tobacco Protective association believes in the maintenance of law and order. It has on all occasions disavowed and condemned the violation of law. Its leaders and officers and its members are among the best people of our land. The organization, its officers and membership stand ready to assist and co-operate with the officers of the law in ferreting out the guilty parties, and bringing them to a speedy trial.

KENTUCKY FOURTH.

In List of Revenue Producing States.

Washington, D. C. Aug. 19.—The total collections of internal revenue in Kentucky last year according to the preliminary report of the commissioner of internal revenue, amount to \$28,444,488. Only three States furnished larger returns of revenue to the Government: Illinois led all, with \$54,856,141.67; New York, \$32,353,647.70; and Indiana, \$29,978,182.10.

LaFayette.

Crops are looking well in this vicinity, and if we can have one or two more good rains it will insure us an abundance of corn. Great many tobacco plants were destroyed here last spring by the tobacco bugs and the "night riders," therefore there was not a full crop of the weed planted, but that crop is also looking fine.

A game of ball was played at Linton Wednesday between the team of that place and the LaFayette team, the score being 15 to 1 in favor of LaFayette.

Mrs. Edwin Garner and three children left here Wednesday to visit friends in Nashville. They were accompanied by Miss Ora Hester, a sister of Mrs. Garner. They expect to be gone about thirty days.

Mrs. W. H. Arthey and little daughter, Willie, are expected home Saturday, after a two weeks' visit to relatives at Carversville, Ky.

Mr. J. H. Thacker, of Alvord, Texas, is visiting Judge Thacker, a brother. This is his first trip back to Kentucky since he left here in '83. He will leave for home in a few days.

Mrs. Lon Lycin, who has been visiting her father, L. J. Purcell, will leave for her home in Manchester, Tenn., Monday. Miss Laura Purcell will go home with her and spend about two weeks.

Mr. W. E. Southall, a prominent farmer of near Herndon, and the father of Dr. Southall, will move to this town in a few days and thenceforward make it his home. He recently bought two cottages in this place, but as they were rented for the year, he will board with his grand-daughter, Mrs. Dr. Marable, until Christmas, at which time he expects to go to housekeeping. Mr. Southall is about 78 years old and is very active for one of his age. There is something remarkable about the longevity of his family. His grandfather, Samuel, lived to be a hundred and ten years old; his mind was clear and he had good use of himself until he reached a hundred. Mr. Southall has two brothers and three sisters—John, James; Mesdames Robt. Brame, Robt. Thacker and J. A. Pugh—now living and enjoying the best of health—all above sixty years old. He is the oldest of the six; Mrs. Brame the youngest.

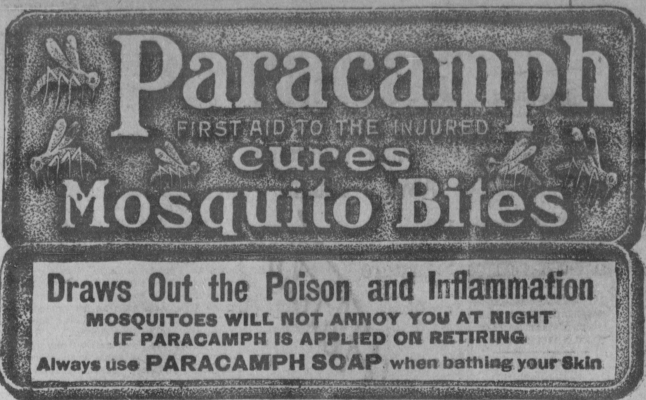

Small Damage Suit.

W. L. Hancock has filed suit for \$500 damages against Slaughter Lacey, alleging that he was run into by Hancock's buggy on East Seventh street, while Hancock was racing with another man, and thrown out on the wheel of his buggy and badly injured.

The Boy Orator.

Umpire Lee, the boy orator, will lecture at the tabernacle tonight. He is only fourteen years old and the development of his intellect is wonderful. Every body should hear him. There will be no admission fee, but a free offering will be taken at the door.

Bedford's Books.
A shortage of several thousand dollars is reported in the books of Circuit Clerk Sam Bedford, of Daviess county. Mr. Bedford says O'Connell Dougherty, his former deputy, now of San Antonio, Texas, is to blame and that the shortage is in costs due him and not the State. Dougherty has not been reached by letters sent to him. The inspector will likely examine the office.

BEAN POT NOT IN FAVOR.

Boston Women Objected to it as Emblem of Homecoming Week.

Boston is not to be represented by a flaring red label and a pot of presumably superb Boston baked beans, says the Post of that city. That is, only partially will she be represented thus.

Certain of the clubwomen of the city have faithfully considered the city's reputation of culture and quality and have decided that it would be folly to send out stickers giving the vulgar word a new meaning and that culture lay in the baking of beans.

Delegates from all the women's patriotic societies met Wednesday afternoon in the Twentieth Century club and discussed things connected with the celebration of Old Home week in Boston.

The Indian sign was put on the mayor's pot baked-bean stickers. It was suggested that a sticker bearing a representation of Panellul hall be used instead and at this point Thomas Anderson of Mayor Fitzgerald's publicity bureau arose and made haste to explain that the quick ones had been quicker to see that the baked-bean stickers had fallen flat and that stickers of a more dignified character were in preparation.

Nest little bundles of the pot and bean stickers were passed around but the delegates gracefully repudiated them by saying that they guessed they would wait until the Panellul hall kind made their appearance.

KNEW THERE WAS A TRICK.

Suspicious Countryman Found His Worst Fears Justified.

"A trust conference—any kind of a conference, for that matter—is a good thing," said Gov. Sheldon, of Nebraska, "if it is conducted fairly."

"To be unfair, to be prejudiced, to be suspicious, is always to judge wrongly. The suspicious man, falls into error and makes a fool of himself."

"There was a very suspicious countryman who went to New York to see the sights. Coming to the Metropolitan Museum, he was amazed to find that the admission to this splendid building cost nothing. He mounted the steps and entered."

"Your umbrella, sir," said the uniformed official, extending his hand. "The countryman jerked back his umbrella, laughed scornfully and turned on his heel."

"I know there was some cheat about it when ye got in free," he said."

Origin of Typhoid Fever.

President Mayo said at last meeting of the American Medical association that a sufferer from typhoid fever has as good a right to sue the city where he contracted the filthy complaint as though he had hurt himself by a fall on a defective pavement and yet read in the newspapers of epidemics of typhoid fever broken out in Cincinnati, Newark and other places. Were it outbreak of rinderpest or foot-and-mouth disease, stringent means would be at once taken to stop it, and all the forces of the government would be enlisted to save cattle or sheep that have a market value, but human beings may die of typhoid fever, and no soldier died in Camp Thomas, and no one besides to account to—Dr. Richard Cole Newton in the Popular Science Monthly.

A Paradox in Age.

At an entertainment provided by the Woman's Philharmonic society the most widely advertised attraction was a dancer who, so it was whispered, "had become too old to teach in the public schools and had taken to dancing for a living." That remarkable announcement drew a crowd of curious persons who were anxious to see what a woman looked like who was too old to teach but young enough to practice the tepidiscian art in public. Also, everybody wanted to know what that tepidiscian age might be, but of course, no one found out.

Seeing All the Town.

There was a whole family of children, and they were only to spend one day in the city with their aunt and cousins.

Upon their return home a friend asked: "What did you see in the city?"

"Oh, we saw all of it," was the reply.

"All of it?" In one day?
 "Yes, you see we're lots of cousins, no one of them took one of us to one place, another cousin took another of us to some other place, and so on. Each of us went to a different place, but the family as a whole saw pretty nearly the whole city."

Lucid.

Finally Archimedes, who for an hour had been patiently guiding the mind of his pupil through a demonstration of an otherwise mathematical problem, was rewarded by the gleam of intelligence that appeared in the young Athenian's eye.
 "And dost thou see the light, lad?"
 "Perfectly," was the enthusiastic response.
 "I, too, had been so puzzled at first, but I, too, had it really cleared up simple. The whole thing is like Greek to me!"—Pack.

A Joke for Business.

"Dat antedoodle dole. Kilted five chickens while it was goin' down de road," said Miss Mamie Brown.
 "You," answered Mr. Frustus Pinkert, "put de full cost of de chicken in de chicken to make de sale's meat profit."

SIZED HIM UP WRONG.

Fistic Encounter Did Not Turn Out as It Was Planned.

"It was this way, you see," said the young man with the black eye and skinned nose, and a gap in his mouth where two front teeth used to be. "I was elbowed by a feller on a street car and we had some words. I determined to lick that man or die. I could have hit him with a stone or club or hired some ruffian to whack him, but I wanted to polish him off scientifically. I wanted to daily with my fists, and I wanted him to see that I was straight punch until I made a pulp of him."

"And so you took boxing lessons?" was queried.

"That's what I did—24 of them. When I had finished my instructor said I could knock out any man twice my weight in America. I had kept my eye on the fellow man and when I got good and ready I threw myself in his way. He gave me the elbow again. I called him a ruffian and a coward and invited him to step off the car."

"And the bluffer didn't dare do it, of course?"

"But he did dare. Yes, sir, he got down lively. I squared off at him and let go with my right. It missed. Then I let go with my left. It missed. Then I swung on him. He wasn't there. Then—then—"

"Then you caught him an awful wallop and killed him stone dead?"

"Not quite. Something came booming along and hit me over the head and I went down and awoke in an ambulance."

"But you had taken 24 lessons in boxing?"

"I had, but as afterward found out the other feller had taken 48."

"PLANT STONES" OF VALUE.

Germs That Are Occasionally Found in Certain Vegetable Growths.

Among the many strange things to be found in the Philippine Islands are the so-called "plant stones," accounted for and again in certain vegetable growths.

The bamboo, for instance, according to Kultur and Natur, contains a stone very similar to the opal, but on account of the rarity with which it is found, much more costly than the opal. In many thousands of cases stalks cut down and carefully examined there may perhaps be one in which this beautiful greenish-pink scintillating stone has been formed from the minute particles of silicious deposit that its parts its intense hardness to the outer covering of the cane. The bamboo cane stone is known as Tabashira.

In the interior of some canes a stone-like secretion is found that is not inferior in brilliancy to the most beautiful genuine pearl.

The True Phonetic Speller.

The child is the true phonetic speller. Mr. Roosevelt, as Kipling might say, is a bloomin' amateur beside him—or her. Little Ellie had been staying in a future woodland place—the Chubbey girl was convalescent from a severe illness. Her letters home were full of the joys of country life, and riddles spellings. "The lazes and meddies (she wrote to a girl friend in London) is crammed wiv luvly flowers. I got bofe hands full Bootiful Star Annie Means Prim Rose. Daisies and Butter Cups and Jhon Quills—o my!" And the adult into whose hands the artless letter fell wondered if spelling were not a vastly over-rated accomplishment.

Palace Smoking Room.

A quite small chamber was the one room in all Windsor castle where the late queen permitted smoking.

A self-colored blue gray paper was on the walls, and the single billiard table was lighted by six oil lamps until quite the last years of Queen Victoria's reign.

Her Father's Child.

A lawyer well known for his ready wit in adapting himself to circumstances and circumstances to his case was a young daughter who bide fair to be his match. Lucy was told she should have no more candy, and the dish was placed on a high shelf, out of the child's reach. Let alone the room, Lucy pushed a chair to the shelf and climbed upon the chair. Just as she touched the dish her father entered.

"Why, what is papa's little girl doing?" he exclaimed.
 "Getting a candy for papa," explained Lucy promptly to the father's Magazine.

This Exception.

"I have come a long way to personally offer you some of my humorous stuff," said the society looking man as he proffered the manuscript.
 "But my dear sir," snapped the editor, "we can't accept any far-fetched witticisms."—Kansas City Times.

The Same Species.

"Did you ship that load of elephants over to the florist on the suburban express?"
 "No, I thought it would be more in order to send them on the trunk line."—Baltimore American.

State College of Kentucky,

LEXINGTON, KENTUCKY.

THE STATE COLLEGE of Kentucky offers the following courses, namely, Agricultural, Mechanical Engineering, Civil Engineering, Mining Engineering, Electrical Engineering, Normal School, Classical and seven Scientific courses, each of which extends over four years and leads to the Bachelor's degree. Each course is organized under a separate faculty. The general faculty, consisting of professors, assistant professors and instructors, numbers over fifty. County appointees receive free tuition, privilege of residence in dormitories, fuel and lights and traveling expenses, if they remain ten consecutive months, or one collegiate year. The laboratories and museums are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

Graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates this year was 901. Each department has a special staff at its head, with the necessary number of assistants.

Summer schools are provided for in Pedagogy, Engineering, and Instruction in Science and the Liberal Arts. The young women find an excellent home, with board and lodging in Patterson Hall, which is well equipped with all modern conveniences, bath-rooms, hall for physical culture, at \$3.00 per week. All the courses of study in the College are open to young women upon identical conditions with those applying to males.

The attendance upon the Normal School in connection with the Department of Education last year more than doubled that of any preceding year.

Three new buildings, namely, one for the department of Education; one for Agricultural Science, and a Library Hall, are in process of erection and will be completed early in the next collegiate year.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

Improved.

Information was received here Monday that Mr. Charles H. Nash, Jr., was some better. He has been very ill with typhoid fever at the home of his parents, in Temple, Texas.

BIG DAY

In Store For Lovers of the Various Sports.

A big barbecue, bran dance, pigeon shooting and ball game will be given on the Hopkinsville road, about one-fourth mile from LaFayette, on Saturday next, Aug. 24. An excellent string band has been secured to furnish music on the occasion and the committee in charge extends an invitation to all. The affair promises to be a most enjoyable one and the attendance will no doubt be very large. A number from this city will probably be present.

Narrow Escape.

As Mr. I. C. Smith who was in a Steves buggy and Mr. C. E. Haze who was in a Paste Bros. buggy both sold by F. A. Yost Co., (incorporated), were coming in the city they met an automobile. Their horse became frightened and came near causing serious damage. Owing to the material used in these buggies and harness they only received a few bruises and say their next buggies and harness shall be bought from F. A. YOST CO., (incorporated.)

HERE AND THERE.

Notwithstanding that everything entering into the producing of nice Laundry work has gone up in price, the Hopkinsville Steam Laundry is given its patrons same old price of 2, 4 and 10 cents, while every city in the country is getting 25, 5 and 12 to 15 cents.

A Valuable Lesson.

"Six years ago I learned a valuable lesson," writes John pleasant, of Mognolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at R. C. Hardwick druggist 25 c.

Local Leaflets

Only ten days before the public schools begin!

Did we have a Confederate Decoration Day this year?

Summer wanderers are beginning to return.

The circus comes on a good day for everybody—Saturday, September 3rd.

Don't forget to hear Umphrey Lee, the 14-year-old orator at the Tabernacle tonight.

But few new cases have been filed for the September term of the Circuit Court. Plenty of time yet.

Second-crop Strawberries of fine quality, are being gathered, but there are none on the market.

Better have your coal house filled soon. From indications coal will cost something next winter.

Sixteen prisoners in the county jail already, and Jailer Johnson is waiting for more.

Mr. G. W. Gardner has moved into the Strayer boarding house, opposite the Clay street school.

New style hats for men are already on display, but the Derby, as usual, is much in evidence.

Fifteen barrels of corn to the acre is pretty good, but some of the farmers say they are going to make it.

The three saw mills and stave factory in the city are using up the timber in this section very rapidly.

The day of fall openings is near at hand, but the "closing out" of left over summer goods have yet to be disposed of.

Signs on the trees in the campus of South Kentucky College read: "Keep Cows Off." Running cows and their drivers, as a rule, do not have time to pay any attention to signs.

No doubt milliners will be glad when the time comes when ladies can not go on the streets bare-headed. Millinery bills must be much less than they used to be.

The peach rot is as bad as ever this year. It has been said that if you will spray your trees in the spring after the fruit begins to form and once or twice afterwards your peaches will not rot on the tree after they have begun to ripen.

LITTLE THINGS COUNT UP

The greatest of men and things were little once. The acorn starts the oak, drops of water made the ocean, and pennies have started fortunes. There is no limit to the field of wonders.

Yet daily perhaps you are giving your children pennies for sweet things, which if instead were placed in a little bank and later on deposit at this bank would be a much wiser plan.
